Introduction

This ***niche*** PDF "call book" gives GMRS enthusiasts a way to see who else lives in their vicinity. The Playground Amateur Radio Club updates it roughly every other month in February, April, June, August, October, and December. Please write to this email address with any comments or suggestions!

Continuing the call book tradition

This PDF "call book" pays homage to the foundational directories of the 1920s when the Dept. of Commerce and the iconic Flying Horse Radio Amateur Callbook helped radio enthusiasts find each other for almost eighty years. Ye Olde typesetting machines have given way to Python scripts & FCC databases, yet the core mission endures: "Helping the radio community to connect, share information, and advance the craft."

How to use this call book

This call book lists all active FCC **General Mobile Radio Service (GMRS)** call signs, divided into four regional zones: "DX" (distant) territories, "DX" military posts, "DX" states, and Contiguous states. Within each zone, the states & territories are listed alphabetically. Under each of those headings you'll find cities listed alphabetically, followed by call signs listed alphabetically:

- Contiguous states
  - Florida
    - Shalimar
      - **WSKP488** Robin Rosenberger

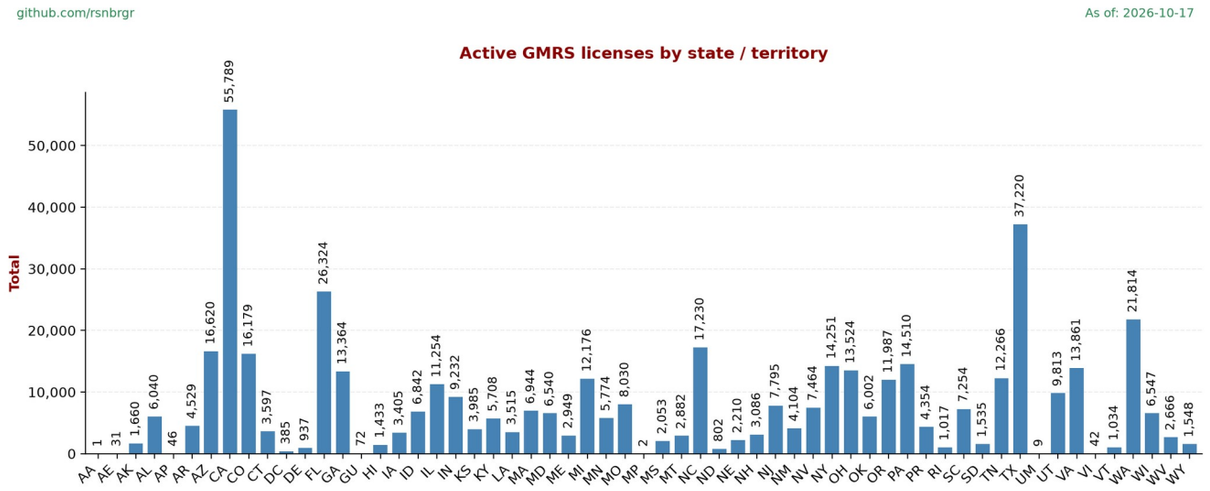
When looking at an individual entry, you'll see the licensee's call sign followed by their name.

Navigating this PDF is simple. The document includes a built-in Table of Contents (often called "Bookmarks" or "Content" or "Index") that your PDF software can display in a side panel to help you jump to any zone, state, or city. You can locate a specific call sign or person using your software's "Search" or "Find" tool (usually by pressing Ctrl+F or Cmd+F). Search hits will also reveal its corresponding city in the Table of Contents panel.

A call sign with a green dagger † remains valid *beyond its expiration date* because it has a "pending application" connected to it.[1] The FCC confirmed in a 2026-09-11 email: "Applicants that have submitted a renewal prior to their expiration date, may continue to operate while the renewal is pending pursuant to rule 1.62." Some of these pending applications take *decades* to resolve, *e.g.* †KF6KVD.

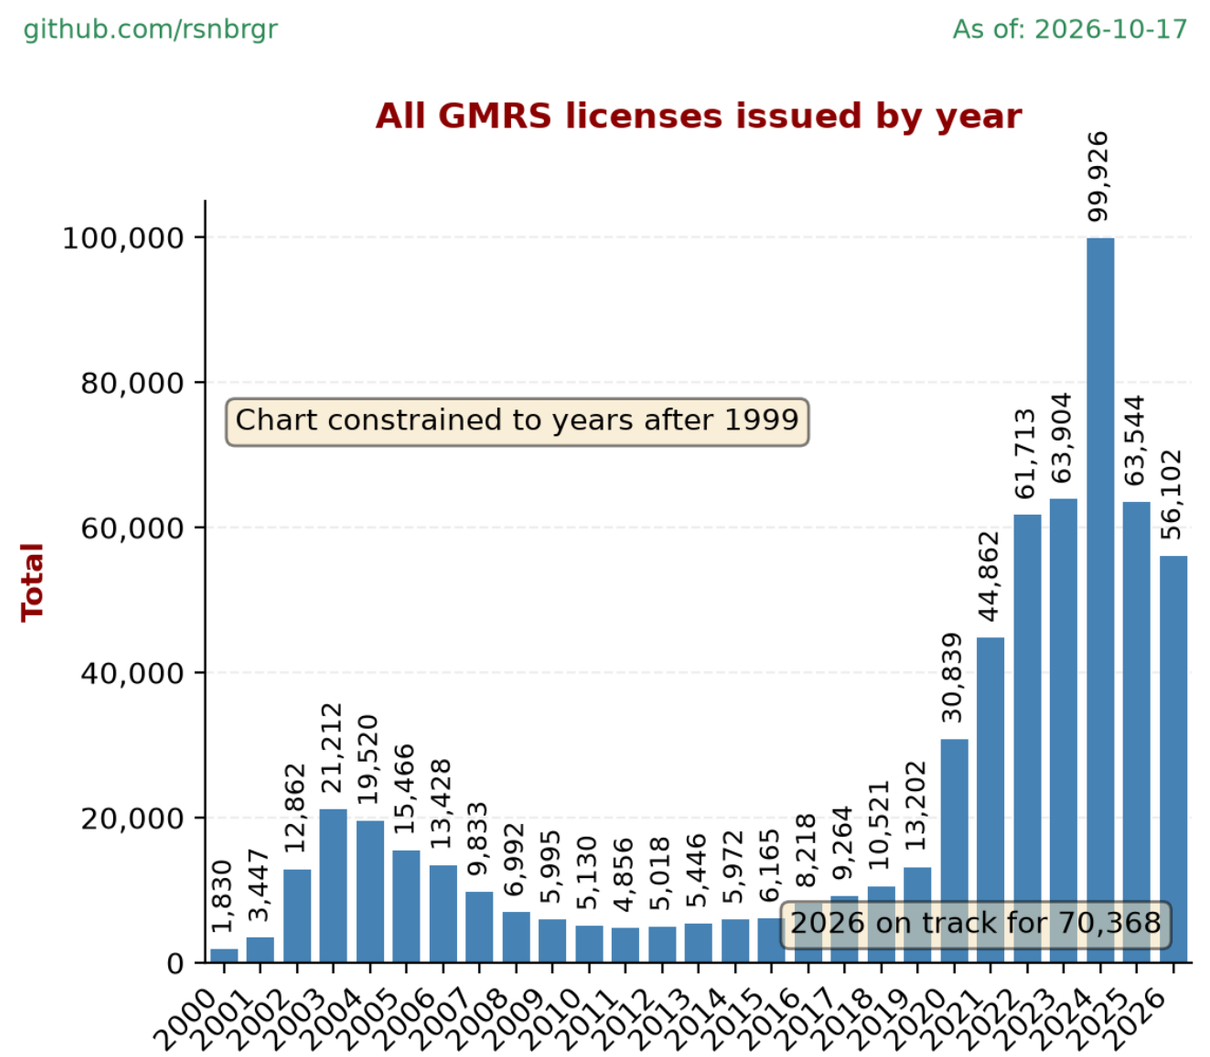
Know this before you print any pages

This PDF is formatted for **legal size** 8½x14" paper. PDF readers usually shrink pages to fit on 8½x11" paper.



1 The FCC & ARRL lookup pages give you no *visual indicators* to make this obvious.

Charts & graphs



"Active" denotes a currently valid call sign. Visit the Playground Amateur Radio Club's resources page to download these charts and many more.

Total licenses in each state / territory

The Playground Amateur Radio Club's resources page has versions of this chart highlighting your state/territory so instructors can snazz up their teaching slides!
